

## Explanations of PF1/PF2/Management Pension Fund insurance statements

### Basis of calculations

Base salary, incentive/bonus and shift allowance are insured up to a threshold of CHF 150,000 in PF1, and components of pay that exceed this threshold are insured in PF2. The base salary component above CHF 220,000 and the Short-Term Incentive are insured in the Management Pension Fund, as provided for in the regulations.

### Insured remuneration

The insured remuneration in PF1, PF 2 and the Management Pension Fund is calculated on the basis of the provisions set forth in the regulations.

### Expected retirement benefits

The projected retirement benefits in PF1 are calculated on the basis of the existing vested benefits (transferabilities) with the future retirement credits and the anticipated rate of interest and converted to a pension using the conversion rate.

The savings are paid out at the time of retirement. Instead of the one-off payment, a fixed-term bridging pension may be paid out up to the statutory (AHV) retirement age.

The projected retirement lump sum in PF2 and the Management Pension Fund is calculated on the basis of the existing vested benefits (transferabilities) with the future retirement credits and the anticipated rate of interest.

### Pension benefits PF1 and Management Pension Fund

- The disability pension (payable until statutory retirement age is reached) amounts to 60% of insured remuneration under the risk plan.
- The spouse's / lifetime partner's pension amounts to 60% of the insured disability pension.
- The child pensions (disability child and orphan's pension) amount to 20% of the insured disability pension per child. Child pensions are paid up to the age of 20, or 25 in the case of continuing education.
- The insured lump sum on death is additionally paid (as a single lump sum). Beneficiaries as defined in provisions set forth in the regulations.

### Pension benefits PF2

In the event of death or disability, the relevant lump sum is paid out.

### Transferabilities

Existing vested benefits (in PF1, PF2 and Management Pension Fund retirement plans and in PF1 savings plan) on date of calculation in CHF.

### Contributions

The contributions cover the retirement credits and pension benefits in PF1, PF2 and the Management Pension Fund
