

## Explanations of PF1 insurance statement

### Basis of calculations

Base salary, incentive/bonus and shift allowance are insured up to a threshold of CHF 150,000 in PF1..

### Insured remuneration

The insured remuneration in PF1 is calculated on the basis of the provisions set forth in the regulations.

### Expected retirement benefits

The projected retirement benefits in PF1 are calculated on the basis of the existing vested benefits (transferabilities) with the future retirement credits and the anticipated rate of interest and converted to a pension using the conversion rate.

The savings are paid out at the time of retirement. Instead of the one-off payment, a fixed-term bridging pension may be paid out up to the statutory (AHV) retirement age.

### Pension benefits PF1

- The disability pension (payable until statutory retirement age is reached) amounts to 60% of insured remuneration under the risk plan.
- The spouse's / lifetime partner's pension amounts to 60% of the insured disability pension.
- The child pensions (disability child and orphan's pension) amount to 20% of the insured disability pension per child. Child pensions are paid up to the age of 20, or 25 in the case of continuing education.
- The insured lump sum on death is additionally paid (as a single lump sum). Beneficiaries as defined in provisions set forth in the regulations.

### Transferabilities

Existing vested benefits (in PF1 retirement plan and savings plan) on date of calculation in CHF.

### Contributions

The contributions cover the retirement and savings plans and the pension benefits in PF1.

Basel, January 13, 2023
