

Welcome to the Novartis Pension Funds Online

The Pension Modeler Tool (PMT) is your personal Self-Service tool for the following services: generate and print an actual insurance certificate; view the current status of your retirement account; model your future pension entitlements considering voluntary contributions; actively change your current contribution scale; find information, latest news and downloads pertaining to the Novartis pension plans in Switzerland.

How it works

Preparation

- Go to Novartis Pension Funds website: <https://www.pensionskassen-novartis.ch>,
- Click on the link “Pension Modeler Tool” on the top of the page.

Registration and activation

- If you do not have a login yet, please register and apply for your personal access.
- Install the “Novartis PMT” app* on your smartphone**.
- Receive the two activation letters from the Novartis Pension Funds by letter post (two separate mailings!) and activate the “Novartis PMT” app with these credentials*** (one-time administrative effort).
- Please note that the app serves as a key only!

Login step by step

Internet device (Browser)	Smartphone (access application)
Always start the login via www.pensionskassen-novartis-online.ch	
Enter xx-digits username (activation letter 1)	
Enter personal password (activation letter 2***)	
Enter 6-digits Captcha code, click “Login”	
You`re now forwarded to the second factor authentication “2FA”	Open the “Novartis PMT” app and push the “Confirm 2FA” button
	Scan the QR code on the left side of your laptop screen
	Enter your personal PIN code you`ve set upon installation
You`ll be forwarded to your dashboard upon successful authentication and are ready to use our online services.	

If you experience any difficulties please contact the Novartis Pension Funds:
Email pk.novartis@novartis.com, phone +41 61 324 24 20 (office hours)

* Please note that the app for new users is only available for Apple iOS!! Download from “App Store”, all actual supported versions

** Private mobile as well as company mobile phones

*** The initial password may be set to an individual one at the end of the registration process
